

## Computer Recommendations and Requirements

At Tilton, we teach possibilities for innovation across a variety of devices, not how to operate a single device. Tilton’s belief in teaching the critical thinking behind a task – not the instructions for completing a task – has formed the basis for our technology recommendations and requirements. For the 2022-2023 school year, each student is required to bring an approved device with them for efficient and convenient access to information, resources, and tools. An approved device is defined as a laptop or tablet (smartphones are not an approved device) meeting these minimum specifications:

<b>Form Factor</b>	<ul style="list-style-type: none"> <li>● Laptop, Tablet, or Chromebook</li> </ul>
<b>Operating System</b>	<ul style="list-style-type: none"> <li>● Windows 10</li> <li>● OS X 10.15 (Catalina) or newer</li> <li>● Apple iOS 15 or newer</li> <li>● Android OS 10.x or newer</li> <li>● Chrome OS</li> </ul>
<b>Additional Requirements</b>	<ul style="list-style-type: none"> <li>● Wireless network access</li> <li>● Laptops:             <ul style="list-style-type: none"> <li>○ 8GB RAM (4Gb for Chromebooks)</li> <li>○ Anti-virus software with a virus definition update subscription</li> </ul> </li> </ul>

### Service and Repair

If your warranty has onsite service, the service visit must be arranged through the Technology Office. For safety and security, Tilton School requires technicians to work in the Technology Office or in a prearranged area where adults are present. If your device needs service and is **out of warranty** the Technology Office can recommend a local business it can be taken to for diagnostics and/or repairs. Tilton School makes no warranties, whether expressed or implied, for the service it may provide. *Please contact the Business Office if you are interested in purchasing accidental insurance.*
