As you read, begin to take notes (either by hand or a google doc). For this class, you will need to think about what you are reading in terms of audience, context, purpose, and the choices the author uses to successfully get the reader to see their point of view. In addition to thinking about analyzing the work from an AP Lang point of view, also think about how these texts relate to other subject areas (Science, Math, etc.) Your teachers in these areas most likely will be exploring these books from the point of view of their subject matter.

You will receive an invite to the AP Lang Summer Google Classroom where you will find the remaining required assignments to complete for the summer.
