

25-26 Computer Requirements

At Tilton, we teach possibilities for innovation across a variety of devices, not how to operate a single device. Tilton's belief in teaching the critical thinking behind a task, not the instructions for completing a task, has formed the basis for our technology requirements. For the 2025 - 2026 school year, each student is required to bring an approved device with them for efficient and convenient access to information, resources, and tools. An approved device is defined as a laptop or tablet with keyboard (smartphones are not an approved device) meeting these minimum specifications:

Service and Repair

Devices should be covered **with a warranty**. While we pride ourselves in being able to assist with many issues, we are unable to do physical hardware repairs at the school. we will be happy to assist each student in obtaining contact information for the manufacturer. If your warranty has onsite service, the service visit must be arranged through the Technology Office. For safety and security, Tilton School requires technicians to work in the Technology Office or in a prearranged area where adults are present. If your device needs service and is **out of warranty** the Technology Office can recommend a local business it can be taken to for diagnostics and/or repairs. Tilton School makes no warranties, whether expressed or implied, for the service it may provide.

2025-2026 INTERNATIONAL STUDENT DEVICE SERVICE

In order to promote the development of strong English skills, all international students are required to use a device that has English as both the primary language and the keyboard layout. This will enable each student to become fully immersed in the English language as well as allow all faculty and staff to offer the same level of support.

Tilton School is offering to assist with the purchase and setup of a device so it will be ready upon arrival. If you are interested, please check one of the following:
